PROFESSIONAL SUMMARY

2024 B.Tech AIML graduate from NIET, Greater Noida, with a strong foundation in front- and back-end development. Completed my training on Asp.NET MVC and asp.net core, JavaScript, SQL, and well efficient in the front-end stack (React). Built real- world apps such as the AI Poem Generator and the Gaming Portal, demonstrating practical skills and innovation. I am also very well efficient in English and have strong communication skill in it.

EDUCATION

Noida Institute of Engineering and Technology (NIET), Greater Noida

2020 – 2024

B.Tech – Artificial Intelligence and Machine Learning

Percentage: 71%

PROJECTS

AI Poem Generator (React + Gemini API)

Jan 2025 – May 2025

- Built a modular React.js app that generates poems using Gemini API prompts.
- Implemented live rendering, user input handling, and responsive components.

Gaming Portal Website (HTML/CSS/JavaScript)

Nov 2024 – Mar 2025

- Created a responsive, browser-based multi-game portal with dynamic dashboard.
- Practiced DOM manipulation, event handling, and smooth animations.

Job portal (Asp.net + SQL)

Sep 2023 – Feb 2024

- Built an Job portal using Asp.net and CRUD operations and user dashboard.
- Optimized SQL queries and ensured consistent performance and scalability.

Portfolio Website (HTML/CSS/JS)

May 2022 – Present

- Developed a responsive personal website to showcase projects and tech stack.
- Designed clean UI/UX with modern layout, animations, and navigation.
